

Plea for AA Volunteers

Our district is currently facing a vital need for members to step into service roles to ensure that the hand of AA is always there for the next person who reaches out. We often hear that a small percentage of people do the majority of the work, but taking on a district responsibility is not a burden—it is a deeply rewarding privilege that actively strengthens our own recovery journeys. Stepping up to support District 5 is a meaningful chance to give back some of the hope, support, and healing that has been so freely given to us. It isn't about seeking recognition or power; it is about being an essential part of something much bigger than ourselves. Please consider volunteering your time to these open positions so that, together, we can guarantee our life-saving message continues to reach those who need it most.
